

Your child is increasing his/her reading skills by learning SIGHT WORDS!

Your child's teacher has recently assessed his/her sight word knowledge. The results of that assessment indicate that your child needs to work on:

LIST ____ SET ____

We need your help at home! Here's how:

- Go to **sightwordtools.com** EACH NIGHT and have your child watch the video *for the list and set above*. Click on this link **kids** to access the lesson.
- Use the Fluency Builder for home practice. Time your child reading the words for one minute and record the WPM (Words Correct Per Minute) in the Practice Log (bottom).
- Challenge him/her to beat this score the next evening!

The thumbnail shows the 'Fluency Builder' section of the worksheet, titled 'List A, Set 1'. It contains a grid of sight words: the, of, a, and, to, in, to, in, and, a, the, of, a, of, the, in, of, and, and, a, in, the, to, in, in, to, a, of, the, to, to, the, of, and, a, and. Below the grid is a 'Practice Log' table with columns for Date, WPM*, Date, WPM*, Date, and WPM*. A small note at the bottom left states '* WPM= Words Per Minute'.

Fluency Builder & Practice Log

What are sight words and why is it important for my child to learn them?
